

Works for the Do-it-Yourself Person

Use Solexx™ to cover your own custom greenhouse frame, deck, patio, or carport! It's easy to install, strong, and affordable.

Pre Cut Panels available in 4' x 8' or 4' x 12' sheets or custom cut rolls up to 150'. Both the panels and rolls are available in 3.5mm and 5mm thicknesses.

Solexx™ paneling is simply the best greenhouse glazing value on the market! Insulated twin-wall greenhouse panels reduce your heating costs while providing 72-77% soft, diffused light—the best light for plants! The strong, shatter-proof glazing protects your plants from strong winds, snow, and other harsh weather conditions. Unlike other greenhouse coverings, the flexible material can be bent around corners and easily cut with a utility knife.

No other greenhouse covering gives you so much! Solexx is:

- Insulated
- Impact resistant
- Flexible
- Best Light Diffusion
- Easily Maintained
- Easy-to-Install
- Low Cost Compared to other twin wall options
